Lockdown Procedure

1. INTRODUCTION

1.1 In extremely rare circumstances, the school may be required to enact a dynamic lockdown to ensure the safety and welfare of students, staff and visitors.

1.2 Dynamic lockdown is the ability to quickly restrict access and egress to the school site or building (or part therein) in response to threat, either internal or external.

2. AIMS

2.1 This policy sets out the method of lockdown that aims to prevent people moving into danger areas.

3. DEFINITIONS

3.1 A lockdown of a building is an emergency procedure intended to secure and protect occupants who are in the proximity of an immediate threat. This procedure is used when it may be more dangerous to evacuate a building than stay inside.

4. THE LAW

4.1 Children's rights at St Teilo's are underpinned by the articles of the United Nations Convention on the Rights of the Child.

4.2 Those present on the school site are protected by the duties imposed under the Health and Safety at Work Act 1974.

5. RIGHTS OF THE CHILD

5.1 This policy has its basis in the following missional rights of the child:

- a. Right I - The right to accurate knowledge and information.
- b. Right VI - The right to be as healthy and happy as possible.
- c. Right IX - The right to be safe around adults and other young people.
- d. Right X - The right to be listened to and taken seriously.
- e. Right XI - The right to be treated fairly and not in a cruel way.

6. TYPES OF LOCKDOWN

6.1 A lockdown is a precautionary measure in response to a threat directly to the school or in the surrounding community.

6.2 In a lockdown, all school activities are moved indoors. Depending on the type of lockdown, interior and exterior doors are secured. No one is allowed to enter or exit the building. It may be that no one is allowed to enter or exit specific zones or rooms.

6.3 A partial lockdown means the doors leading outside the building are secured and people may not enter or exit the building.

6.4 Types of lockdown include:

- a. Shelter in place – usually an external health hazard where building evacuations are not recommended. The goal of this procedure is to keep people indoors until the threat has passed.
- b. Internal threat – this threat exists when the danger is inside of the school building. The goal of this procedure is to keep everybody safe until the threat is completely removed.
- c. External threat – this threat exists when the danger is outside of the school building. The goal of this procedure is to prevent the threat from entering the school.
- d. Full lockdown – this scenario involves a serious threat that requires immediate action.

6.5 The types of events that require lockdown include (for example):

- a. Aggressive or violent intruder
- b. Critically aggressive or violent pupil
- c. Hostage situation
- d. Riots
- e. Police activity nearby
- f. Dangerous animals
- g. Chemical or environmental incident

7.3 Lockdown will be communicated to staff in the following ways:
